

Casino Games for Poker-first projects

Monetize Your Poker Traffic
with an **Integrated Casino**

Why Add Casino? Key Stats

Up to 15% of active poker players try casino games when offered on the same platform

Converted poker-to-casino players generate 2–4x higher GGR than typical casual casino users

Integrated casino improves player retention and session time by up to 20–30%

What We Offer

- ✓ A ready-made 'Casino' tab inside your poker platform
- ✓ Full casino interface with:
 - Game thumbnails, search, filters, categories,
 - Game preview, demo mode.
- 📦 We tailor your casino offering with top-performing games for your target markets

Key Benefits for Poker Operators

💰 **New revenue stream:** an average poker-to-casino player generates \$7–\$10 GGR/hour.

🎮 **Seamlessly integrated into poker client – casino runs in a dedicated tab.**

🧩 **Thousands of games from Tier-1 providers –**
already integrated into our platform, ready to activate.

🌐 **Works globally, supports multiple currencies and languages.**

🎁 **Promo tools:** free spins, cashback, deposit bonus.

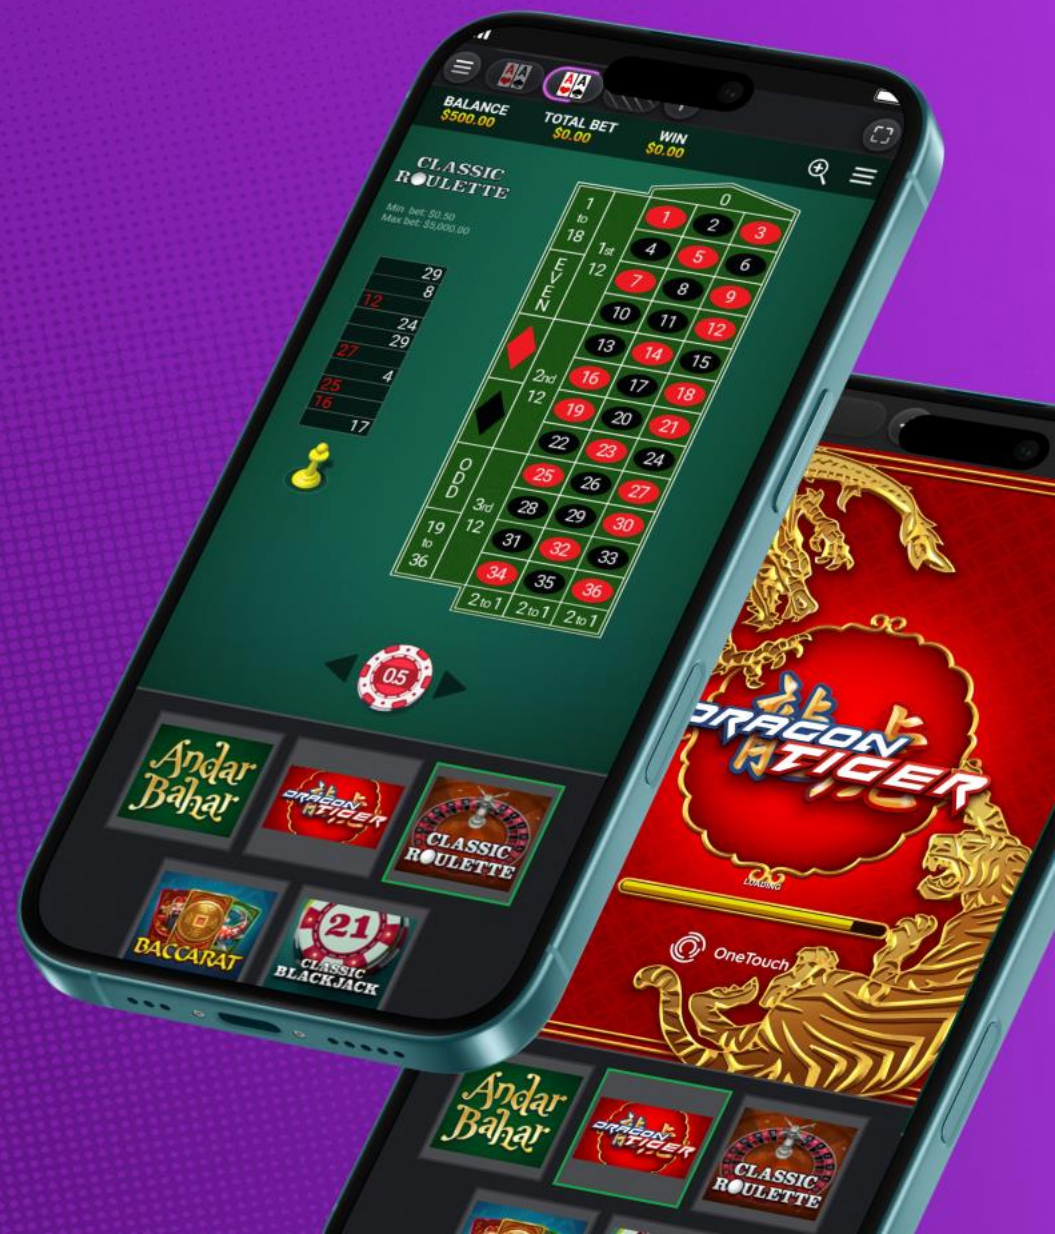

📊 **Reports & analytics –** track casino metrics by player, provider, game.

🔧 **Expert support –** casino content team helps you select top games and optimize results.
