

# Mini-Games for Poker Clients

Increase Engagement  
and Revenue with a Simple  
Sidebar Feature

# Why use the Mini-Games feature?

- Potential to double player revenue per hour by providing an easy access to casino gameplay during idle time at the poker table
- Smooth filling of gaps between hands by entertaining a player with side games
- Can be seamlessly integrated into the table UI  
Mini-Games run in a side panel without disrupting the main poker gameplay
- Welcome promo package  
50 free spins per player

# Revenue per Player per hour

## Poker Only

Active gameplay time:  
10 minutes

Revenue generated:  
~\$3 Rake

\*based on 6-max poker table

# VS
