7 reasons to choose **WePlay**

Increased Player Pool

1

By merging player bases, network poker increases the overall number of players available for games. This ensures that players have more opponents to compete against, leading to a more vibrant and active poker ecosystem.

Non-stop Availability

2

With a larger player pool, there's a higher likelihood of finding active games at any time of the day. This is particularly advantageous for players who prefer non-peak hours or have varying schedules.

Variety of Games and Stakes

3

A larger player liquidity allows for a wider variety of poker games and stakes. Players can access a diverse range of tables with different buy-ins and game formats, enhancing their overall gaming experience.

Tournament Guarantees

4

Networked poker sites can offer larger guaranteed prize pools for tournaments due to the combined resources of multiple platforms. This attracts more players and creates more significant incentives for participation.

Improved Cash Game Action

5

With more players in the network, cash games are more likely to have a consistent flow of action. This prevents long waiting times and ensures that players can find a suitable game quickly.

Enhanced Competition

6

A larger player pool means a more diverse range of opponents, which can lead to a higher level of competition. This is appealing to skilled players seeking challenging games and opportunities to improve their skills.

Cross-Platform Compatibility

7

Networked poker often allows players to access games from different platforms within the network. This flexibility ensures that players can use their preferred devices and software to participate in games seamlessly.

Anti-Fraud

Protection mechanisms

WePlay network lobby is the gateway to our gaming network, and it is designed to be user-friendly and easy to navigate.

Our lobby is designed to provide players with a seamless and immersive gaming experience, with a range of features to enhance the player experience

The WePlay gaming network has implemented a sophisticated anti-fraud module to ensure player safety and maintain the integrity of its platform. This module is capable of detecting suspicious activities in real-time by constantly analysing player behaviour and transactions.

Any unusual activity is automatically flagged for further investigation by a team of experts. Additionally, the system employs advanced algorithms and machine learning techniques to identify and prevent potential fraudulent behaviour before it occurs.

WePlay also has a dedicated team that monitors the platform around the clock, addressing any fraudulent activities quickly and effectively. This commitment to fraud prevention is part of WePlay's dedication to providing a secure, fair, and enjoyable gaming experience for all players, whether they're engaged in casino games, poker, or sports betting.

Ecology

WePlay team is constantly analysing player behaviour and feedback to identify areas for improvement and implement changes that enhance the overall gaming experience

The WePlay gaming network is more than a gaming platform; it's a comprehensive network ecology connecting players, affiliates, and partners globally, aimed at delivering mutual benefits like increased revenue and enhanced player experiences.

A key aspect of this ecology is its diverse partnerships, including collaborations with game developers, payment providers, and marketing agencies, enhancing the gaming experience with a broader game selection, secure payment options, and effective marketing strategies.

For affiliates, WePlay offers various commission structures and marketing tools to boost revenue and promote the platform efficiently. Additionally, a dedicated team continuously works to improve player experiences by analysing behaviour and feedback, ensuring access to the latest games, features, and promotions.

WePlay emphasizes the importance of a robust network ecology for the platform's success and player satisfaction, inviting players, affiliates, and partners to join and benefit from this dynamic network.

Support Guidance

At WePlay we are committed to providing our players with the best possible gaming experience, that's why we offer a comprehensive support service to help our players with any questions or issues they may have

WePlay network provides exceptional service to both clients (B2B) and players (B2C). We offer following:

- **Account Management:** Personalized assistance for setup, maintenance, and optimization.

WePlay Network offers a versatile range of promotional options to suit different needs, including network-wide, client network-wide, and private promotional campaigns. Committed to network growth, WePlay reinvests a portion of its revenue into funding network-wide promotions, covering the full cost for expansive reach.

For more targeted engagement, we provide client network-wide promotions, focusing on specific player groups or geographical areas, with the network playing a key role as a marketing coordinator. In these campaigns, multiple clients can participate, with WePlay financially contributing 30% of the promotion cost, provided the campaigns adhere to our promotional guidelines, while remaining 70% is shared by single or multiple clients.

Additionally, we offer the option for entirely private campaigns, managed and funded solely by individual clients, allowing for tailored, client-specific promotion strategies.
